Some Republicans are discussing Thaddeus Stevens' domestic life. The Sandusky Resister takes a hand in the discussion, and says: "In his domestic relations he [Stevent lived a perpetual fie, and committed a continuous crime. Any attempt to whitewash his offence or call it by smooth names, is an unconscious attempt to break down the barriers of domestic virtue, and introduce into American life the worst features or French society." And such was the domestic life of the great leader of the Republican party.

The Crists of the 13 h devotes a lengthy article in favor of Repudiation; but, although repeatedly called on to do so, it does not even undertake to show how Repudiation is possible without cursing the people with the most agonizing poverty and distress, by rendering utterly valueless the currency with which they do business. That currency which would thus be ren-dered valueless forms more than one-fourth of the Public Debt, as set forth in the last report of the Secretary of the Treasury. It it can be clearly shown that the Repudiation of this part of the debt will not adversely affect the industrial and producing classes. that movement would be stronger than it is now.
